## Skills

### Operating Systems

Linux, MacOS

### Programming Languages

Python, SQL

### Frameworks

FastAPI, Pandas, Polars, SQLAlchemy, SQLModel, PySpark, PyTest, Pydantic

### Cloud and Containerization

Docker, AWS (S3 | Athena | AWS Glue | CloudFormation | AWS Lake Formation | Secrets Manager | Lambda | DynamoDB | IAM | Amazon Redshift), AWS CDK (Cloud Development Kit)

### CI/CD & Automation

GitLab CI, GitHub Actions

### Version Control

Git

### Agile Methodology

Scrum, Jira

## Languages

**English**
B2

**Polish**
Native speaker

Experienced Software Engineer and Tech Lead with a strong background in developing high-quality solutions in an English-speaking, Scrum-driven environment. Proactive in taking ownership of tasks, mentoring team members, continuously improving processes, and ensuring code quality through best practices. Passionate about delivering maintainable, efficient, and scalable solutions.

## Experience

**InfiniteDATA Services** **2024-02-01 - Present**
Backend Developer

- Designing and implementing scalable REST APIs with best practices for performance and reliability
- Leading development teams, mentoring and guiding less experienced developers
- Architecting cloud-based applications on AWS for high availability and scalability
- Defining technical structure and architecture of applications, ensuring maintainability and extensibility
- Optimizing business logic and API workflows for efficiency and robustness

**InfiniteDATA Services** **2022-12-01 - 2024-01-31**
Data Engineer

- Data engineering and pipeline development
- Cloud-based application deployment and scalability
- REST API design and implementation
- Business logic architecture and optimization
- Mentoring and guiding less experienced developers

**SoftServe** **2022-04-01 - 2022-11-30**
Software Engineer

- Feature development in existing web applications
- REST API design and implementation
- Cloud-based application deployment and scaling
- Client communication and requirements gathering

**Arrow Electronics** **2019-10-01 - 2022-03-30**
Machine Learning Engineer

- Computer vision solutions with ML/DL
- ML lifecycle management automation
- Business logic architecture and optimization
- Cloud-based application architecture and development

**Intel Corporation** **2019-06-01 - 2019-09-30**
Software Validation Engineer

- Software quality assurance
- Test plan development
- Performance and compatibility validation
- Bug identification and resolution

## Education

**Gdańsk University of Technology** **2014-10-01 - 2019-02-28**
Automatic Control and Robotics
